D. T. JOHNSON—Groceries.
WOOLLCOTT—Local notice.

LOCAL BRIEFS.

——Mr. D T. Johnson, one of our active and enterprising Grocery and Commission Merchants on Wilmington street, has a new advertisement in this issue. He is a native of Chatham where he has wide connections and a fine trade. For the past three years he has carried on a constantly increasing business, and now has a large establishment on Wilmington street.

ATTENTION RALEIGH LIGHT INFANTRY.—You are ordered to meet at the Armory this evening at 7½ o'clock sharp, for the transaction of important business. By order of the Captain. Ed. F. Smith, Acting G. Sergeant.

A TRIBUTE OF RESPECT.—There was no session of Wake Criminal Court yesterday, as it adjourned on Saturday until to-day, as a mark of respect to two distinguished members of the bar, Hon. B F. Moore and Col. D. M. Carter. On Saturday, in court, Messrs. A. M. Lewis and T. P. Devereux made a motion to thus adjourn, and made fitting speeches enlogistic of the eminent deceased. Their remarks were fittingly responded to by Judge Strong, in a few feeling remarks.

FUNERAL OF MRS. J. C. R. LITTLE.—The last sad services over the remains of the beloved wife of J. C. R. Little, Esq., who died Sunday morning after a lingering illness, were held yesterday afternoon from the Edenton street Methodist church, the pastor, Rev. W. S. Black, officiating. The remains were interred in Oakwood to which last resting place they were attended by a large number of relatives and friends.

THE SCATTERED NATION.—A request was yesterday circulated among the members of the General Assembly, asking Gov. Vance to deliver his admirable lecture on "The Scattered Nation," before them on Friday evening, at Commons Hall. All who have ever heard this lecture justly regard it as one of the most interesting and instructive ever delivered, and it is to be hoped that Gov. Vance will favor them with a repetition.

THE INAUGURATION OF GOV. JARVIS.—To-morrow the resignation of Gov. Z. B. Vance goes into effect, and at noon, in the hall of the House of Commons, Gov. Thomas J. Jarvis will take the oaths of office before the two Houses of the General Assembly in joint session. These ceremonies will be impossing and will be witnessed by a large crowd. The Senate and House meet at noon, and the new Governor will be sworn in by the Chief Justice.

THE CHARM BROKEN.—The spell that has for so long a time rested upon the bad citizens, and which has been so justly a cause of pride to the people, was rudely disturbed yesterday by a bad case of drunk and a fight in which both sexes participated. There were no other troubles, but the charm has now been broken and the ungodly will no doubt figure largely in the police records for some time to come. They can't stand such a moral high-pressure long, and will return to their wal low.

TUCKER HALL LAST NIGHT.—A large and fashionable audience greeted the famous Mendelsohn Quintette Club last night. The overtures were remarkable for their brilliant harmony and showed that each instrument was in the hands of an eminent artist. The flute, the violinally and the violin, were respectively introduced and wonderfully wrought upon. The Mezzo Soprano of Mrs. Knowles was very pleasant and at times quite brilliant. The peformance throughout was a rich treat and could not tail to delight the most refined and cultivated ear. They play again to-night.

THE POST OFFICE FURNITURE.—The elegant furniture for the furnishing of the government building in all its departments, is now being placed in the various offices. It is of walnut, uniform in pattern, and of a peculiarly rich yet chaste design. The work is spoken of as being substantial, and the material as excellent. The officials in the building will be greatly convenienced by the arrival of this furniture, which will also set off its interior to much greater advantage. The court room on the third floor will be one of the most elegantly furnished in the South.

THE INAUGURATION HOP.—Preparations on an extensive scale are being made for the ball which is to be given at Tucker Hall to morrow evening, complimentary to Gov. Jarvis, who assumes his new duties at noon on that day. The invitations have been widely circulated, and the ball will be graced by the presence of many of the first gentlemen of the State, as well as numbers of her fairest daughters. It is reported that Charlotte and Wilmington will be well represented, and it appears that the affair will be a memorable one, by its brilliancy and its gay throng. No event in a long time has excited such general interest among the fashionables.

SUPREME COURT.—Court met at 10 o'clock on yesterday. Present, Chief Justice Smith and Justices Ashe and Dillard.

R. H. Bradley came forward and took the oath of office as Marshal.

Appeals were called as follows:

State vs. Matthews & Humphreys, from Surry; argued by Attorney General Kenan for the State, and Watson & Glenn for the defendants.

E. Mauney & Sons vs W. A. Coit, from Rowan; argument begun, J. M. Clement for plaintiff, and Shipp & Bailey and J. M. McCorkle for defendants. Pending argument court adjourned until this morning at 10 o'clock.

INFORMAL MEETING OF THE MAGISTRATES OF WAKE.—At an informal meeting of the Justices of the Peace of Wake county, at the Court House on yesterday, Justice Whitley in the Chair, and M. V. B. Gilbert, clerk pro tem, Justice R. G. Dunn offered the following premable and resolutions, which were adopted.

WHEREAS: The costs in the prosecution in Wake county against Geo. W. Swepson and M. S. Littlefield have already accumulated till the amount is large; and in the event of failure to convict, the costs will fall heavily on the already burdened tax-payers of said county; and whereas, the county of Wake has no more interest in said prosecution than any other county in the State; therefore be it

There were present 48 magistrates. The chairman, W. R Pool, Esq., explained that the object of the meeting was to allow the Commissioners to borrow money for county purposes. After some remarks on the subject, Commissioner A. G. Jones moved that the Board borrow for the county the sum of $10,000 for the quarter ending April 30th, 1879, and $5,000 each following quarter of the year, should they think it necessary to borrow for this entire time. This was adopted by the Commissioners. The question of concurrence by the Justices was then discussed by Justices Whitley, Magnin, R. G. Dunn, Briggs, Stephenson and Manly. The Justices then decided to concur.

The Justices then retired and the County Commissioners sat for the transaction of regular routine business. They appointed a number of road overseers. W. L. Jackson, John Norwood and J. A. J. Perry were appointed a committee to rebuild Parker's bridge over Neuse river. Capt. Chas. H. Scott gave his bond as County Surveyor.

AT THE SPEAKER'S DISPOSAL

On motion of Mr. Foard the calendar was placed at the disposal of the Speaker, who took up the bills as follows.

Bill to make the killing of live stock by railway trains indictable, and engineers and conductors liable to indictment unless the railway pays damages, passed.

H. B. 87, to secure to litigants in courts of Justices of the Peace a more speedy determination of their rights, and that the return day of summons be the trial day of case, passed its readings.

H. B. 90, altering sec. 2, of the constitution so as to require voters to exhibit his tax receipt or sheriffs certificate of payment, on the day of election to the judges of election, before being allowed to vote.

COUNTY OFFICERS' FEES.

H. B. 104, requiring sheriffs, registers of deeds, and clerks of superior courts to make at the end of each year sworn statements of the fees received or due them, such statements to be filed in the office of the register of deeds and posted at the court house door. Mr. Mebane spoke to the bill saying it was the only means of ascertaing the amount of the fees received by these officers, that they may be regulated. It turns on light in the matter. Mr. Norment objected to the bill, as it imposed additional burdens upon clerks of courts, who are now required to enter their fees in a book, which may at all times be inspected. Mr. Bernard favored the bill which then passed.

H. B. 127, to relieve merchants and tradesmen in cases where, since Jan. 1st, 1879, they have paid privilege tax, was tabled.

H. B. 165, to regulate the practice of dentistry, and prevent imposition or quackery by future requiring practitioners to exhibit a diploma, or pass an examination, paying a fee of $30. Mr. York objected, as there were some really good dentists who had never studied. Mr. Ford said the bill would keep off incompetent persons. Mr. Clark so thought, as did Mr. Bernard. On motion of Mr. Covington, further discussion was postponed until noon to-morrow.

H. B. 241, to allow the Winston, Salem & Mooresville R. R. the use of as many convicts as may be deemed necessary, not to exceed 150, none to be taken from roads in which the State has an interest, passed its readings.

H. B. 184, to establish the State line between the counties of Macon, N. C., and Rabun, Ga., by an accurate survey, appropriately $100 to defray expenses, and appointing a commissioner to be chosen by the Governor, to act on the part of this State, passed.

H. B. 190, to define the duties of Justices of the Peace in criminal actions, by requiring them to ascertain if the prisoner desires trial by jury, was tabled.

H. B. 206, an act to list taxable property in any county in the township where the owner or his agent resides. Mr. Reid, of Macon, spoke of the bill as a convenient measure, while Messrs. Richardson, of Columbus and Amis thought it might conflict with the revenue bill. Mr. Clarke favored the bill. A motion was made to table it, which prevailed.

At 2 p. m. the House adjourned.

Pope Leo's Encylical Against Democracy.

Springfield Republican.

Pope Leo XIII not merely denounces infidel socialism, but he launches the whole force of his argument point-blank against Democracy, against every principle in which the republic of the United States is rooted, from which the Republic of France strives to grow, and which is cherished by the vital force of the people in every European State.

What is this "desire which man naturally has of elevating himself?" Is it not the God-implanted principle that has made any part of the world worth living in, and that alone can make Yet this is under the ban of the church. What is this conviction now spreading through all enlightend Christian lands, that a people should make their laws? Laws Has it not a direct warrant from the preaching of Jesus? And what justifies pope or emperor in judging the struggle against intolerable despotism with such unscrupulous and indiscriminate condemnation?" Can he pretend to know what any of these words he utters so glibly means? Russian nihilism is not to be measured with the same measure as Parisian communism. It must be recognized that the pope has made a grand declaration against the rights of man. His very arguments in the passage we have cited in full were worn out in the service of negro slavery in this country and sound notably stale in our cleared air. Leo XIII has uttered the decree of the papacy against human nature. He has appealed to the past; but it is the future that is to answer.

A Blessed Memory.

Lenoir Topic.

James Harper, born May 14, 1799, died at Fairfield, near Lenoir, which for more than a half a century had been his home, on Sunday, January 26, 1879—having almost reached the age of eighty years.

His was a long, laborious, successful and honorable business life, on Christian principles. He never thrust his religion on any man's notice, but acted so that all bare record of it, and well may our young men consider if they shall emulate the fame of those 'great men" whose names figure in histories of battles and debates, or if they shall not rather aspire to follow the example of this pure and God-fearing gentleman, try to lead a life like his, and like him leave behind them a memory of an untarnished name.

The Same Story.

Wilmington Star.

We believe that public sentiment is overwhelming in demanding that there shall be a reduction of salaries and a cutting down of expenses wherever it is possible, without being unjust or niggardly. Some of the papers refer to the present Legislature as the "Reform Legislature." This is the era of economy and retrenchment, and there is every indication that the people will not be disappointed in that particular at least.

Messrs. John B. Hussey and Geo. C. Jordan have leased the Raleigh NEWS from the owners for a term of years, and will henceforth conduct it. Mr. Jordan has been the business manager of the paper for five years past and for the last three months Mr. Hussey has been its editor. He has conducted its columns with prudence, ability and brilliancy, well sustaining the high reputation which he had previously established as a journalist. We are sincerely glad to know that he is to become a fixture in journalism at the capital. The new proprietors announce that they will shortly put a new dress on the paper and otherwise improve it. They are both young men—men of capacity, tact and energy, and conducted with the ability which the management is capable of, and upon business principle, we look for the NEWS to do many years service yet for the State and for the Democratic party.

The Other Ox Gored.

Springfield Republican.

The New York Tribune realizes that it is now the turn of the other ox, and its Washington special apologises and pleads for the habit of using ciphers in a rather pitiful way. "It is not a suspicious circumstance to find telegrams "in cipher passing between prominent "republican politicians in 1876, nor is it "any more remarkable that they should "feel an aversion to having unfriendly "persons hauling over and reading such "dispatches than that they should object to a similar examination of their "private or political letters." In fact, the use of "honest and honorable means" in the republican canvass seems particular to be vindicated. Editorially the Tribune very naturally thinks that the political dickering of a postmaster-general of the United States, a foreign minister of the United States, and the secretary of the interior of the United States is as foreign to this investigation as the Colorado beetle to Colburn's arithmetic. Oh, to be sure, this investigation was only intended to hit "private persons," not people in office. That is at least one advantage inherent in the democratic case—the guilty parties eminent as they were, were at least private persons, and not officials of the United States.

MacMahon, Duke of Magenta.

Boston Herald.

At the bidding of his conscience he has stepped down from a seat but little lower than a throne. The most ardent Republican must feel respectful pity for the old soldier whose three score and ten well-counted years cover, as he himself recalled in his letter of resignation, fifty-three years devoted to his country. From his youth up, from the day on which, a lad of seventeen, he began his military career at the School of St. Cyr, he has spent the strength of his life in the service of France. He won laurels with both hands, and gathered them as freely. The proud signature at the foot of his letter, "MacMahon, Duke of Magenta," tells the story of his soldiership and of its reward. He bought his dukedom by the rescue of an army. He won the presidency by the recapture of Paris. Yet all his bright past cannot show a deed so manly, so high-minded, so soldier-like in the truest sense, as is this prompt surrender of the highest position in the land at the call of honor.

The Lieutenant Governor.

Piedmont Press.

Upon the resignation of Governor Vance, Lieutenat Governor Jarvis will assume the duties of Governor, and this will necessitate the election by the Senate of a Lieutenant Governor, who will preside over the deliberations of that body during the remainder of the session. In this connection we have heard mentioned the names of Capt. J. L. Robinson, of Macon, W. P. Dortch, Esq., of Wayne, Gen. J. M. Leach, of Davidson, and Maj. W. A. Graham, of Lincoln. Maj. Graham has been favorably mentioned by a number of the Senators for this place, and if elected will fill it in an acceptable manner. He has been in the chair several times this session pro tem and showed plainly that he had the qualifications so eminently required for that position. Apart from his election it would be a fit compliment to him in memory of his distinguished father, the late Gov. William A. Graham who has devoted so much time and talent in laboring for the prosperity of our State in the days that are numbered with the past.

The Death Rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs, Boschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950 000 bottles sold last year without a single failure known. *

Agricultural Interests.

Among the important matters suggested for the consideration of the General Assembly in the report of the Commissioner of Agriculture, is the propriety of the enactment of a general law authorizing the application of a "no-fence" law to such counties or townships, as may at any time, declare in favor of abolishing the crop fence by a majority of the votes of their landowners.

No one contends that we should at once revolutionize our system, and without regard to the peculiar needs of the people, in any particular section, adopt the plan of fencing in stock rather than the crops. No such proposition is made, but a discussion is in order upon the merits of the preservation of the old order of things, when it may be plainly shown that in many sections it is leading straightway to poverty, and always has been an intolerable burden upon industry and enterprise.

Section seventh, of the Act creating the Agricultural Department, charges the Board of Agriculture "with the collection of statistics relating to the subject of fences, with suggestions for diminishing their cost, and the conditions under which they may be dispensed with altogether." The statistics obtained by the Commissioner, although imperfect from the want of means provided by the State to secure full returns, are nevertheless full enough to exhibit over 143,000 miles of fencing, and the Commissioner estimates its value at one hundred and five dollars per mile, so that fifteen millions of dollars is invested in crop fences in North Carolina, in the counties reporting. It is doubtless a much larger amount in reality.

Eight years is the average life time of a fence, that is the work of repair and replacing it is generally agreed, is equal to the original cost. We have then 12½ per cent to pay, in some farms. Are these millions of dollars, to be abstracted from the wealth of the country. Sometimes it is paid in cash, sometimes in labor that would have brought valuable returns if otherwise devoted, or in wagons destroyed and teams worn out in the destruction of valuable timber, the injury to lands by winter hauling; paid it must be in some shape, even if deferred a few years, by the risks of rotten fences, and missing water-gates.

No such enormous burden is imposed upon the farmer in those countries of the world, where agriculture has reached its greatest perfection. On the contrary, poor and valueless stock is discarded, domestic animals are properly fed and cared for, within limits fenced for their accommodation, and the crop lands are bounded by corner stones, and imaginary lines. Japan and China have learned this secret. More people can be supported per square mile from agriculture purely, in China it is said than in any country of the world. The German States, France, Italy, and Spain adopt the same system, with slight modifications.

It has been computed that the total cost of the fences in the United States is $1,800,000,000 or more than the interest bearing portion of the national debt. The State of Kentucky is much like our own, in situation and in interest, with her lowland section on the rivers, and her high mountain blue grass region. The Commissioner of Agriculture of that State in his report for 1879 estimates for the 125,000 farmers of that State that it took 70,000,000 of good rail trees for the timber requiring 280,000,000 rails annually for repairs, and ten million dollars of capital and labor. The live stock of all kinds is worth nearly $25,000,000 requiring one third the amount therefore to keep restraining fences. Here is a tax, friends, of retrenchment and reform, that is well worth your time and attention.

But we have seen little of this subject yet. There are many important considerations which are part and parcel of it. Of course the needful fences for stock have to be provided, but it may well be estimated, that the increased amount and value of barnyard manures will go far to compensate for that. Stock kept up to be fed, will be in better condition, and the manure far more valuable. Green soiling will be resorted to, and many a barren acre will smile with clover. That in turn will improve the land, and make it ready for the application of the fertilizer. The soil will gain largely in mechanical condition, because it will no longer be carelessly trampled by hungry stock. Better land and better stock will give a feeling of pride to the farmer. He will seek the best seeds to do his land justice, and better tools to work with. A little start upwards often leads to a long career of improvement. Is this an imaginary picture? Very few years will pass away, we think, before the prosperity of Mecklenburg and Cabarrus will answer that question with eloquence.

Nor should it be forgotten that in North Carolina we have still one of the noblest heritages that ever fell to man to preserve. We mean our forests. The careful observer notes how the trees are melting away throughout the North and West, before the wasteful woodman. The great lumber mills of the North-west have to reach farther and farther for their supplies. West Virginia, South Western Virginia and N. C. have a mine of wealth yet, if they jealously preserve it. The demand for railroad ties alone is something enormous. A wood fire in any of our metropolitan cities on the seaboard has become a token of luxury for the very wealthy only, whose lungs are offended by the gasses of coal.

With the loss of the trees the streams dry up, for the rains wash off the baked surface to the sea, or rapidly dry up in the parching sun. With these the fish disappear, and fertility of the lands along its banks is lowered.

These calamities we have been spared as yet, in a large part of the State. Forewarned, forearmed.

The Commissioner has done the State a public service in calling attention to this important topic. We repeat that we are aware that it is not now advisable; in view of the interest of some of the mountain counties, and of the want of clear purpose, and full information on the part of some of our population, to pass any obligatory law, but there can be no reasonable objection to a well digested law providing for local option. Let us close this great drain upon our resources.

The Board of Agriculture can do great good in educating public sentiment in this direction.

The Defaulting States.

"Under the title of "The Compromising States," the Age, of Louisville, expresses the sound opinion that it is the duty of the Legislatures of these States that are heavily in debt to make the best compromise they can with their creditors, and that speedily. It points out that the States of Tennessee, North Carolina and Virginia, instead of acting on this judicious advice—"instead of meeting the issue fairly and closing with their creditors upon the best terms they can get, are haggling, wasting time, increasing the interest and spending money by needless delays and obstructions that should go to pay the debts they owe." "The Age might have included in the same category the State of West Virginia, which shows no inclination to meet any part of her reasonable share of the debt of old Virginia. There is no doubt if there is any real desire on the part of the defaulting States to adjust their debts, the time to do it is now, for every year's delay piles up additional interest and increases the difficulty of an honest and honorable settlement. It is admitted that Virginia, racked and torn and impoverished as she was by the war, and with a part of her domain and population wrested from her and formed into an independent State, is in no condition to settle with her creditors except by compromise. But on that basis some settlement might be made which her creditors would be willing to accept as a finality, and by which she would retain that virtue which every State should cherish—her sense of self-respect. There is a strong party in the good old State who feel that this ought to be done, and the hope is that it will yet be done, and that the demagogues —many of whom are repudiationists at heart—will be put down. With Tennessee it is different. There every possible obstacle had recently been put in the way of reaching any fair and reasonable agreement, and her new Governor, in his late message, appears to have achieved more in that regard than any other one man in the State. Every attempt at compromise has thus far failed, and although the creditors have repeatedly expressed their willingness to have the debt largely scaled, every proposition made by them has been met with a lower one, or by such obstruction as would delay indefinitely any settlement. Now the Legislature, in accordance with a mere partisan platform of a year ago, proposes that any plan of settlement whatever that may be agreed upon shall be submitted to the people for ratification, thus giving politicians a new opportunity to work further demoralization, whilst Governor Marks throws another obstacle in the way by disturbing the settlement which had been effected with the railroads which were authorized under the Brownlow administration to pay their debts to the State in any class of State bonds. This issue made by Governor Marks is the more serious in that some of the bondholders, over a year ago, when the State had defaulted on her interest, (except that due to her own school fund and her own universities,) despairing of getting justice from the State, consulted counsel in regard to the validity of the settlement of the railroads with the State, and procured strong legal opinions to the effect that those corporations could not refund the State's advances to them except in bonds of the same issue which they received. If this opinion should be sustained it will have the effect to bankrupt every railroad in Tennessee, at the same time that it will consummate the irretrievable disorder of the State's finances. The whole course of Tennessee for a few years past, notwithstanding the soundness of her two last democratic Governors on the subject, has leaned towards repudiation, and it would be more honest—certainly more manly—to repudiate the debt utterly than to let it drag along until, from sheer weariness of contention, the creditors, as in the case of the Mississippi bonds, abandon their claims. The taint has rested upon Mississippi ever since, and she could not now place a loan on any market, either at home or abroad. In respect to North Carolina, Governor Vance in his recent message puts the debt of that State, principal and interest, at $27,000,000, exclusive of the special tax bonds. He says it is impossible to pay such a debt at its face value; that he does not conceive there is any moral obligation resting on the people to do so, nor do their creditors expect it of them. "But," adds the Governor, "we can and should pay something," and he states that he has grounds for believing "that very reasonable terms indeed can be obtained if determination is shown on the part of the people of the State to settle the question and be done with it." He avows that he is ready to co-operate to the full extent of his power in any honorable adjustment, which, he adds, "will sooner or later have to be done, for the sake of our good name and our future prosperity." Against any payment of the special tax bonds he sets his face like flint. "They are not binding," he says, "in law or good morals, unless it may be as to a very small fraction honestly appropriated to the State's use and accepted by her." Upon these last The Age takes issue with the Governor, believing that however much the State has been wronged in the misuse of the proceeds for which they were sold, the better policy would be to recognize them as open also to compromise, inasmuch as "some of them are owned by the widows and orphans of the men who poured out their blood and sacrificed their lives at the call of North Carolina." It is hard indeed that the innocent should suffer with the guilty, and unless these bonds are so tainted with fraud as to make them invalid, so much of them should be paid as the State can properly take upon herself to meet. The moral drawn by The Age is honorable to Maryland. "All these States," it says, "should take a lesson from Maryland. That State was also embarrassed, and got behind in her debt; but instead of adopting the false logic of repudiation, she held fast to her good name, economized in her government, reduced her expenses, and worked through the disaster that threatened her. The result is her bonds stand among the highest now in the market. Two hundred and fifty thousand dollars of the treasury relief loan were sold during the past year, yielding an aggregate premium of $12,500, or five per cent. above par. Honesty may pay slowly, but it pays best in the end."

To demagogues the honor of a State may appear to be of little consequence; but, in the long run, it will be found that, apart from standing highest in the world's esteem, those States will be most prosperous who have preserved their integrity and maintained their credit by paying their debts in full, or, under the circumstances of the South, making the best settlement with their creditors that lies within their power.

The Resignation of MacMahon.

It is with regret that we give notice of that gallant Irishman's declension of further honors at the hands of France.

He has proven himself a good friend to his adopted country, and among all the names, which tributary Ireland has furnished the world, none stand higher than his.

Prudent and conservative he has achieved a triumph which the Celtic nature was not thought capable of.

M. Gambetta has a hard task in the undertaking to vindicate as praiseworthy the Republicanism pure and simple which he so much loves. The best philosophers of government have all along claimed that France was not able to achieve this. That Gambetta may put the prophet to the blush is the earnest wish of the NEWS.

THE Louisiana House votes to abolish the Moffit bell-punch, but adopts a general revenue bill in its stead. This prohibits the transaction of any business without the payment of a license, and then lays taxes in wholesale fashion. Beer saloons must pay the fancy price of $1,500; insurance agents $1000; theatres, shows, junk shops, telegraph and express companies $500; bankers and private clubs $250, and so on down to druggists, doctors and lawyers, who must pay $30 each. Warmoth wanted to tax daily newspapers $5,000 as a common nuisance, but of course that did not pass.

THE little State of West Virginia last year voted $28,000 in good money for the education and support of its deaf and dumb and blind.

Troublesome Matters.

Representative Brown in Charlotte Observer

The troublesome matter of the revenue bills is yet to be disposed of. The question is how can more money be raised without an increase of taxation? The demand for more is imperative. There is a deficiency in the treasury of $100,000, and this must be met by the machinery act to be passed by this General Assembly. The judgment of the treasurer is that this deficiency should be made up by the levying of a tax upon persons and objects hitherto tax free.

The question of salaries and fees is one which is engaging the thoughtful attention of the Legislature. The indications seem to be that the bill of Mr. Graham, leaving the commissioners of each county to establish the fees of the county officers, will become a law, though it encounters strenuous opposition in some quarters, more especially from the county officers themselves.

A great deal of work has been mapped out but, aside from private and local bills, very little has been perfected. Col. Brown is satisfied that the Legislature will sit throughout the entire sixty days allowed to it by law, and will have to spur up to complete by the 8th of March, the work which has already been inaugurated and some which has not been touched, but which must be disposed of.

How they Retrench in Other States.

Springfield Republican.

The era of economy and retrenchment has apparently had its effect upon the average legislative mind. To select a few from many examples, the lower branch of the Minnesota Legislature have voted to do away with the custom of printing 5000 copies of the Governor's message.

The Missouri House keeps the ball rolling by reducing the Governor's salary to $3000 and other State officers to $2000. In Tennessee, Governor Marks has voluntarily given up $1000 of his salary, and the Senate is considering a general reduction and equalization of official wages. In Indiana, all the county officers are notified to report their salaries and perquisites. At all the State capitols where Legislatures are now sitting, there is the same evidence that the economy of the people is having its effect—the best assurance we have that we are growing into individual thrift and national prosperity.

AT THE STATE HOUSE.

DEMOCRATIC ECONOMY VS. REPUBLICAN EXTRAVAGANCE.

What the Secretary of State Says.

A NEWS reporter was courteously and kindly received by the able Secretary of State yesterday when he announced that the object of his visit was to cross examine him about matters and charges pertaining to his office.

Major Englehard is the handsomest and most showy of our State officials. He presides at his desk with the ease of an old journalist. A little impediment in his speech makes him an interesting talker. Before his celebrated campaign in 1876 he was well known in the State as the editor of the Wilmington Journal. With an able and courageous colleague, in the person of Col. Saunders, our late conferee of the Raleigh Observer, he redeemed the patriotic Cape Fear District in the election of the gallant and gifted Waddell to the 41st Congress. Ye reporter found his office in nice trim. At a desk opposite to the Secretary sat his able, popular and faithful chief clerk, Capt. Dudley. Sharpened by its contact with the State Treasurer our promising blade began its work with avidity.

The office-holders are charged, Mr. Secretary, with lobbying against retrenchment. How is it?

I know nothing of the charge, and do not believe it. I have visited the Houses of the General Assembly very seldom, and have had no conversation with the members upon any questions before the Legislature, unless requested so to do. I certainly am not opposed to all proper retrenchments. Unnecessary expenses should be cut off. There should be a wise discretion, however, in this as in all other subjects before the General Assembly.

The Secretary's office is said to be a "fat" place. Can you enlighten the public mind on this score?

The fees of this office are decreasing very rapidly. This is owing to the holding of the sessions of the General Assembly biennially instead of yearly and being limited to only sixty days; the rapidly decreasing number of insurance companies doing business in this State; and the small number of grants now being issued. The fees paid by the State to this office will amount to something less than $1500 per annum—and the fees paid by insurance companies and individuals about as much more. I suppose my predecessors received much more, as they had annual sessions of three and four months. I am told that before the war frequently as many as three thousand grants a year were issued from this office. I have issued in *two* years something over seven hundred. The fees are exactly the same as were paid before the war. The fees established by Battle's Revisal are the same as these of the old Revised Code. If the receipts are larger it is because more business is done now than then. But I do not think they are larger if you will leave out of the count the business of the Insurance Bureau, which was added to this Department by the Legislature of 1874-'75, in which were a number of the leading men of the present General Assembly. While this bureau increases the emoluments of this office it adds very largely to its labors and responsibilities. I pay some fifteen thousand dollars into the Treasury, from this source without cost to the State, and have never, as yet, lost one cent, in the collection but have kept all companies pretty well up to their obligations to the State.

Your predecessor in office was charged with waste and extravagance in the purchase of stationery for the State. Have you saved the State any thing in that direction?

Yes Sir: I have saved very large sums of money to the State, many times the amount paid me for my services in the prices paid for purchases, and the total amount purchased. I had felt some little pride in the contemplation of a hearty "well done" by my party friends at least. You may well imagine my disappointment. Still I hope to see some use made of this in the campaign of 1880.

How many sinecures in your office?

"Say that over and say it slow," responded the able and affable Secretary.

I mean, said our man, can you sacrifice a clerk or two to the popular demand for retrenchment, without any serious inconvenience to the public service?

The State allows me only one clerk, and when it is recollected that I fill four separate and distinct offices, viz: Secretary of State, Land Commissioner, Insurance Commissioner and Civil Quarter-master, requiring at all times one or two extra clerks and frequently four or five, I really believe that the efficiency of the Department would be impaired by any material reduction. Some of the fees may seem large, but others again are rediculously small, and while a great deal is said of the former, you hear nothing about the latter. For instance: I am sure since the meeting of the General Assembly, now nearly three weeks, that the time of one of my personal employees has been fully half employed in searching for grants and other matters for the members and county officials I have thus far received *sixty cents* for this work.

I have examined the statutes of other States of about the same population, especially Southern States, and I find that the minimum salaries and fees paid to the officials who fill the same positions I do in this State, amount to double what I receive—some being more than three times as much.

I suppose I pay into the Treasury of the State nearly or quite $ 5,000 per annum, without deduction from seven different sources, which require as many accounts to be kept, and monthly settlements to be made, except in one case

"A delicate question, perhaps, but what is your opinion of the Reform Legislature?"

"As I have said before, I have had very little time to visit the Houses of the General Assembly, and I have thought, while so much was being said in regard to the several Departments, that it was more becoming to do so. I trust I have a goodly number of friends in that body, some of them dating back to our boyhood, and many of them, who have been, and are still very warm in their approval and compliments of my canvass in 1876. I am sure that no one wishes more heartily than I that their labors will rebound to the best interest of our beloved State, and no one will render more cheerful official and personal assistance to that end."

Commissioner of Immigration.

Correspondence of the NEWS.

WARRENTON, Feb. 3 d.

I do not think I am unappreciative of the importance of a retrenchment of public expenditures, if wisely conducted, but you have doubtless heard that there was such a thing as being "Penny-wise and pound foolish." I hope our Legislators will not act so as to subject them lves to the imputation. All unnecessary expenses ought to be cut off, but there is an unwise extreme which may be very easily reached. It is the unquestionable duty of the Legislature to foster every enterprise tending to develop the resources of our State, and promote her growth and prosperity.

A prime condition of the prosperity of any State is the increase of its population by immigration from abroad. This is a proposition, the truth of which I suppose will hardly be questioned. It is also true that there is no present provision of law, possessing any efficiency in promoting this important enterprise. If we are to effect anything in this direction, there must be a thorough and wise organization of a department of Immigration with a liberal appropriation for its support. There should be appointed a Commissioner of Immigration with a good salary, with authority to appoint agents at important points in Europe, to properly represent the State and induce immigration. There has been no time in the past when circumstances were so favorable for pushing this important enterprise as the present. The depressed condition of affairs in England, and indeed all Europe, will undoubtedly lead to a very large immigration from those countries, and if North Carolina is wise, she will at once institute measures to secure a share of it. Other States have followed the course suggested and been paid ten fold for the outlay they have made.

"Retrenchment and reform" is an euphonious phrase but frequently serves to cover a good deal of nonsense. It is not judicious retrenchment if wise reform that withholds proper appropriations for important measures, calculated to develop our vast resources, and give North Carolina the position among her sister States to which she is justly entitled. I am satisfied the measure indicated would result in great benefit to our State, and in a few years greatly reduce the rate of taxation by the increase of wealth and population which would result therefrom.

Should the Legislature determine to inaugurate an enterprise of the kind, as thousands of the intelligent people of the State believe it ought to, I know no man better qualified for the position of Commissioner, than John White, Esq., of Warrenton. Mr. White is by birth a Scotchman, but has resided in this country from boyhood. During the war, he was the agent for North Carolina in England, and has resided awhile in Liverpool since the war. He is honest, experienced and in every way qualified. I have no doubt Gov. Vance under whose administration he represented our State in England, will bear me out in what I say. X.

To the Point--Attention of Legislature Requested.

Correspondence of the NEWS.

There has been much *talk* of Retrenchment. There has been but one single act cutting down expenses which has *yet* passed. The people are ahead of the politicians. They demand relief. Look at the $30,000 the officers and offices in our State Capitol (including negro hire and sundries) annually cost our poverty crushed tax-payers and look at the following from Michigan. The State of Michigan is one-sixth larger than North Carolina, she has 200,000 more people to govern and she lists just double as much property for taxation as North Carolina. Here is what Michigan pays her higher officials: Governor, $1,000; Secretary of State, $800; Treasurer, $1,000; Auditor, $1,000; Attorney-General, $800; Superior Court Judges, $1,500. Evidently the people rule in Michigan and politicians here. Will your exchanges, which are favorable to a relief of the tax-payers copy the above and oblige

ONE OF THE PEOPLE.

Grangers, Fertilizers, &c.

Concord Register.

The Pomona Grange met at Mooresville on the 29th ult. There was a full attendance of the members of the fraternity, and a highly entertaining session.

Resolved 1. That the Cabarrus county Pomona Grange petition our Legislature, through our Representative, Capt Orchard, to pass a stock law to extend through Cabarrus and Rowan counties and ten townships of Iredell county. And also a law known as a dog law, for the protection of sheep husbandry throughout the State.

Resolved 2. That we petition the Legislature to include in the law concerning the sale and delivery of cotton, after sunset and before sunrise, the sale of the grain of wheat, rye or corn to any dealer in spirituous liquors or any person acting as agent or in the interest of the same. And that the Secretary furnish a copy of these resolutions to the Representatives of Cabarrus, Iredell and Rowan in the Legislature.

Resolved 3. That we, as a Grange, refuse to pay the exhorbitant price charged for fertilizers by the combined fertilizer manufacturers, of 550 pounds of lint cotton for a ton of fertilizer; and further: That we will not pay more than the established price for last year, viz. 450 pounds of lint cotton for a ton of fertilizer.

Resolved 4. That as a Grange, we recommend to our members, and to agriculturists generally, to purchase pure chemicals and give more attention to composting, believing that this course will be for the benefit of the farmers in producing a better fertilizer at a great reduction of cost, also to give more attention to valuable formulas for this accomplishment.

Another North Carolina Invention.

Charlotte Observer

Alexander Oliver is a rather obscure shoe maker in Union county, but has recently invented a method of making seamless shoes which is likely to give him a national notoriety. A shoe constructed on this method was exhibited at the Observer office yesterday by Mr. C. A Blackwelder, who lives in McDowell county, and who with Mr. Jas. Smith bought the invention from Oliver and have made application for the patent. They have received a letter from the patent office stating that no application of the kind has ever been recorded. The inventor claims that in addition to the comfort in a shoe without seams, the manner in which it is cut saves one-quarter in the upper leather—a very important fact, if true. The shoe exhibited to us is well shaped and seems to have a decided advantage over those made on the old style, whether a coarse brogan or a French calf-skin gaiter. It has been such a short time since the invention was perfected, however, that it has not been put to a practical test.

DAILY NEWS
TUESDAY FEBRUARY,.....4 1878.

The Lovers' Hour.

When the evening sun goes down,
And the daisies close their eyes;
Ere dusk wrinkles to a frown,
Or the stars blink in the skies;
When the dew and zephyrs light
Woo the perfume from the flower,
When the day is meeting night,
Is the lovers' hour.

Gloaming is the trysting time;
Hardest outlines soften then;
Common mortals grow sublime—
Love and twilight soften men.
Feelings hidden from the light,
Shrink not to assert their power;
And when day is wooing night
Is the lovers' hour.

Twilight veils with kindly grace
Blushes burning on the cheek,
When the timid upturned face
Coolly answers eyes that speak;
Lip meets lip, its troth to plight;
Rapture, then, is love's sweet dower;
Then when day is kissing night,
Is the lovers' hour.

Grant's Nomination Assured.

St. Louis Post-Dispatch.

The question was, is it possible that Grant can be nominated for a third term? The question now is, is it possible that his nomination next year can be defeated? Is it?

He will start with a "solid south" in his favor—that is, a solid delegation from every southern State in the republican national convention. The negroes and carpet-baggers, who constitute the republican party in the south, are all enthusiastic for Grant for as many terms as he pleases.

It only requires a majority to nominate in the republican convention. B t it only requires the seventy votes of New York added to the solid vote of the south to have that majority for Grant. And everybody knows that Conkling and the "machine" will go for Grant most heartily in preference to any other candidate.

But Don Cameron and his ring own Pennsylvania, and will give the great vote of that debauched state to Grant with as much absolute certainty as the rising of the sun. Here, then, we see how the simple will of Conkling and Cameron, with the vote of the south, can secure Grant's nomination by an overwhelming majority.

And this is not all. In Illinois and Michigan, and Wisconsin and Kansas, and New Jersey the Grant machine is owned as if in fee simple by Logan, Chandler, Carpenter, Robeson & Co. Their delegations will undoubtedly all go for Grant's nomination. All the present indications point to this.

Really, it looks very much as if it were already too late to organize a respectable opposition to Grant's third nomination. It seems more probable that he will be nominated very much in the same manner and by the same crowd as in 1868 and 1872.

THE GENUINE
DR. C. McLANE'S
Celebrated American
WORM SPECIFIC
OR
VERMIFUGE.

SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,
DR. C. McLANE'S VERMIFUGE
will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY in any form; it is an innocent preparation, *not capable of doing the slightest injury to the most tender infant.*

The genuine DR. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper. —:o:—

DR. C. McLANE'S
LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the liver, and in all Bilious Complaints, Dyspepsia and Sick Headache, or diseases of that character, they stand without a rival.

AGUE AND FEVER.

No better cathartic can be used preparatory to, or after taking Quinine.

As a simple purgative they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Each box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

GLOBE FLOWER SYRUP. HEPATINE. VEGETABLE SPECIFIC.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book, free to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcers, Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. DR. PEMBERTON'S STILLINGIA or QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer.

$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

Price, by all Druggists $1.00.

THE ONLY PERFECT FAC-SIMILE OF THE REAL DIAMOND IN THE WORLD.
Pronounced by the Academy of France that *M. Lefevre has really obtained artificially the true diamond* The basis of these gems are pure crystals found in the Sierra Nevadas, from whence they are exported to the Lefevre Laboratory in Paris, France, where they are submitted to a chemical and voltaic process BY WHICH THEIR SURFACES ARE COVERED WITH A COATING OF PURE DIAMONDS, imparting to them all the BRILLIANCY, HARDNESS, and refractive qualities of the natural diamond, and making them as desirable for Wear, Brilliancy, and Beauty, as the veritable gems themselves. The Ring, Studs, and Ear Drops, as displayed in this announcement, are accurate engravings of SOLID GOLD MOUNTINGS, CONTAINING THE WONDERFUL LEFEVRE DIAMOND, warranted by certificate U. S. Mint assay.
ON RECEIPT OF ONE DOLLAR in America, either article as above represented. Or "Book on Diamonds," with illustrations of artistic Diamond Jewelry in solid (14 k.) gold, mailed free.
I have seen many imitations of diamonds, but never any that could equal the Lefevre Brilliant.—M. ELLROY, Stamford, Conn.
I am in receipt of a pair of the Wonderful Lefevre Ear Drops, for one dollar; to say that I am pleased with them hardly fills the bill, they are simply elegant.—ANDREW MORRIS, Horsetheville, N. Y.
The Wonderful Lefevre Diamond ring, for one dollar, came to hand this morning. It is really elegant, giving entire satisfaction, and eliciting wonder and admiration from all who see it.—W. H. REDDY, Martinsburg, W. Va.
The Lefevre Diamonds, mounted in solid gold, are truly marvelous.—R. F. AVERY & SONS, Home and Farm, Louisville, Ky.

News Telegrams.

Congress.

By telegraph to the News.

WASHINGTON, Feb. 3.—The Vice-President laid before the Senate the credentials of Hon. D. W. Voorhees, elected to fill the unexpired term of Hon. O P Morton, and as Senator for six years from March 4th next. Mr. Voorhees took the oath of office under the new credentials.

The bill introduced by McCreery, of Kentucky, to transfer the office of Indian Affairs to the War Department, was laid on the table, to be called up by McCreery, who gave notice that he would submit some remarks in regard thereto.

By Matthews, a joint resolution providing for a commercial treaty with Mexico. Referred to the Committee on Foreign Relations.

HOUSE—Under the call of States, Cutler, of New Jersey, introduced a bill appropriating a hundred million dollars for the payment of arrearages of pensions.

Teller, (colored,) presented a petition from the colored people of Louisiana, complaining that they are not protected, either in life or property. That at the recent election they were met by armed white men, known as Democratic Clubs, and that they were shot at and not allowed to hold meetings. They therefore invoke protection of the Federal Government. Referred to the Select Committee, of which Teller is chairman.

The Joint Committee on the yellow fever epidemic, met to-day. The merits of the bills which have been introduced in Congress, were discussed at length, but without reaching a conclusion as to the most practical recommendation of the epidemic. The Committee then adjourned.

Mr. Harris, of Tenn., from the Select Committee on epidemic diseases, reported a bill to prevent the introduction of contagious or infectious diseases into the U. S., and to establish a bureau of public health. Ordered to be printed and recommitted to the committee.

Matthews, of Ohio, submitted a joint resolution providing for a commercial treaty with the Republic of Mexico. Referred to the committee on Foreign Relations.

The Senate went into executive session at 1:10 p. m., remaining until 8. The vote on confirming the nominations of Merritt and Burt was 31 to 24 The majority of the Democrats voted in support of the administration, although a considerable pressue has been brought to bear upon Representative McMahon, with a view of inducing him to serve as Chairman of the Potter sub-committee, who are to visit New York city. That gentleman said this afternoon that it would be utterly impossible for him to act. A change on the Republican side has also been effected. Reed having been substituted for Gov. Cox, the latter desiring to be relieved from the duty owing to the pressure of other business This arrangement was made by Republican members of the committee, and although no meeting has been held, it is understood the change is acquiesced in by all the members. There will be a meeting of a majority of the Teller Committee to-morrow, when the testimony of Judge Mackey, of South Carolina, will be taken.

Cigar Makers Strike.

NEW YORK, Feb. 3.—The cigar makers held a mass meeting this afternoon for preventing a proposed further reduction in wages, as well as prices. Nearly all the shops in the city were represented. A permanent organization was effected, and a committee appointed to draw up a plan of procedure to be submitted at the next meeting.

Burning of a Theatre.

LONDON, Feb. 3.—The Theatre Royal, with a seating capacity of 4,000, originally costing $150,000, and having the largest stage of any theatre in the kingdom, was totally destroyed by fire this morning. No lives lost.

Failure of the Lady Walkest.

NEW YORK, Feb. 3.—Annie Bartel, who had undertaken to walk three thousand quarter miles in as many quarter hours was taken from the track yesterday suffering severely and unable to proceed. She had completed only 566 quarters.

Slaughter of the Indians.

Among those who escaped from the late massacre was the noted Chief "Dull Knife," by far the most implacable and escrable savage that ever invaded civilized or uncivilized homes—a perfect pest to all beef eating communities. We congratulate the people of this State that such a splendid assortment of SHARP CUTLERY was opened last week at Law's China House, Raleigh and Charlotte.

N. B. Lots of crockery arrived too.

RALEIGH, N. C., Feb. 1

This is to certify that I, C J. Whitaker, member of the Legislature from Guilford county, N. C., was totally deaf in my left ear since 1865, could not hear anything. Have been under the treatment of Dr. Allen, at the National Hotel in Raleigh. I can now hear ordinary conversation. Lightning Cure took a large piece of wax from my ear and I can recommend Lightning Cure to those who are deaf.

Unheard of Bargains!

AT THE INDEFATIGABLE ENDEAVORS TO PLEASE THE PUBLIC SO HERE GOES.

Ye muses nine, inspire my pen,
To sing of Fayetteville streeet, No 10,
who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses you hear them talk;
In Fayetteville street just take a walk
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids your all adieu
And wishes a happy new year too.
And not forget

GILES' LINIMENT IODIDE OF AMMONIA Cures Neuralgia, Face Ache, Rheumatism, Gout, Frosted Feet, Chilblains, Sore Throat, Erysipelas, Bruises and Wounds of every nature in man or animal. The remarkable cures this remedy has effected classes it as one of the most important and valuable remedies ever discovered for the cure and relief of pain.

Rev. Mr. Alliger, of Jamaica, L. I., suffered for years with a sore throat, which clergymen and speakers are subject to. He obtained immediate relief from Giles' Liniment Iodide of Ammonia.

The Value of Pure Wine in Sickness.

The chief difficulty with reliable wines has been their scarcity and exorbitant price, but this has been removed by the introduction of a Pure Native Wine, produced from the Oporte grape by Mr. Alfred Speer, of New Jersey. We understand he has submitted his Wine to the test of many of our celebrated physicians, and all concur in its purity, medical properties and superiority to the best imported Port Wine. Most of them prescribe it in cases of debility, affections of the kinneys, and chronic complaints, requiring a tonic, sudorific or diuretic treatment.—Examiner. Salesroom 31 Warren street, New York.

A Legitimate Triumph in Medicine.

Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes: yet, all the while a more insidious, but no less fatal foe, enters thousands of households every year and carries off the flower of the family in the early flush of manly youth and budding womanhood. People call it presumption, or "decline." It is not, in most cases, the tubercular phthisis or consumption of the lungs, which is the peculiar malady in climates like those of the British Islands and New England, but a general decay or arrest of the vital processes of nutrition All the doctors agree that there is no remedy for this but COD LIVER OIL but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely overcome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is agreeable to the taste and an unequalled nutrient and tonic for the body nerve and brain.

The Kentucky State Lottery has, during its existence, paid more money in prizes than any lottery, domestic or foreign, whose tickets are sold in this country. The drawings take place twice a month, under sworn Commissioners of the State, and are published in the N Y HERALD, STAATS ZEITUNG, and LOUISVILLE COMMERCIAL, AND ALL OUT-OF-TOWN TICKET HOLDERS ARE MAILED A COPY OF THE OFFICIAL DRAWING as soon as received. All prizes are cashed, without deduction, on presentation, and no one outside of the winners are made aware of the fact of their being richer by thousands of dollars but themselves, for we will not, under any circumstances, publish the names of persons drawing Capital Prizes, for the purpose of drawing custom to our lottery
